

Nlyte[™] Standard

VERSION 8

DESCRIPTION

This two-day course will provide personnel with practical instruction and experience in using the Nlyte system. The training will cover the core Nlyte functionality that the majority of users will utilize on a regular basis.

This course forms the foundation for more advanced and specialized courses available.

PRE-REQUISITES

Knowledge of the Windows Operating System and experience of web based applications and graphical user interfaces (GUI's) is desirable but not required.

DURATION

2 Days. 9:30am – 4:30pm
